5.3 EURAXESS – the Network of European Mobility Centres

What is EURAXESS (Germany)?
EURAXESS is an EU-wide network providing information and advice for internationally mobile researchers. 40 countries are involved. The EURAXESS network typically comprises a central organisation in each country that coordinates the activities in that country and maintains contact with the central organisations in the other countries as well as with the European Commission. In addition, numerous universities and research institutions in all the countries cooperate at local level.

What services are on offer to mobile researchers?

- Website www.euraxess.de/en and a helpdesk
- Information, initial advice and mediation services for mobile researchers and those responsible for them (incoming, outgoing, returning) dealing with entry, working, social security, taxation and practical issues as well as frequently asked questions and answers
- One of the most comprehensive funding databases for researchers in Germany
- A free, Europe-wide job portal in which researchers can post their CVs and institutions can advertise positions vacant

Interplay between Welcome Centres at local level and EURAXESS Germany
The national EURAXESS coordinators work together with partners and research institutions in their respective countries. In Germany there are more than 70 universities and research institutions – including the universities in Dortmund, Duisburg-Essen and Bochum – which are registered as “local service points” in the EURAXESS network. For their part, the partners at universities and research institutions have agreed to support the researchers at their institutions. In practice, the distribution of work is roughly as follows:

- EURAXESS Germany:
  - Initial guidance for researchers on the themes mentioned above
  - Mediating contacts to individual universities and research institutions in Germany
  - Mediating contacts to partners in the EURAXESS network in other countries
  - Networking and continuing education events for “researchers advisors” at universities and research institutions in Germany (up to twice a year)
  - Networking between local service points and the Europe-wide EURAXESS network

- Local service points in the EURAXESS network:
  - Dealing with individuals at the respective institution
  - Providing information on the specific institution/location
  - Mediating contacts to responsible local organisations/institutions
