

ERASMUS Internship: Insurance cover

Information on insurance cover:

The Erasmus Traineeship grant is not connected with any insurance coverage.

It is the responsibility of the participating students to purchase a suitable and comprehensive insurance cover for the duration of the traineeship abroad.

If you do not have sufficient insurance cover, you have the option to take out the insurance package of the DAAD (combined health, accident and personal liability insurance). Tariff information and the link to the DAAD-Portal (to apply for the insurance) can be found on the [DAAD website](#).

Please note that you are free to choose the insurance provider that suits you best.

Declaration:

I hereby confirm that I have sufficient and comprehensive insurance cover in the form of health, accident and liability insurance.
